

Ahmed Elbilal

Senior Full Stack Developer

ahmed.sudani570@gmail.com | [Linkedin](#) | [Fiverr Profile](#) | [+201550122936](tel:+201550122936)

Summary

Senior Full Stack Developer with **5 years of experience** building scalable web and mobile applications using **React**, **Next.js**, **TypeScript**, and **React Native**. Adept at both front-end and back-end development, with a strong grasp of complex UI/UX design patterns, state management, and modern development workflows. At **Lidolink**, I've contributed to high-impact projects, while also delivering successful freelance solutions on **Fiverr**, consistently earning positive client feedback. Passionate about clean code, performance optimization, and delivering user-centric products.

Professional Experience

Front-End Developer | [Lidolink.com](#) | Italy's first MLAM based AI platform

Nov 2024 – Present

- Developed the entire front-end of Lidolink's website using Next.js and TypeScript.
 - Utilized Zustand for efficient state management.
 - Styled the site using TailwindCSS and incorporated ShadCN UI components.
 - Leveraged Server Actions to handle data processing and API integration on the back-end.
 - Translated complex UI designs into high-quality, responsive code that improved user experience.
 - Integrated front-end components with the back-end, ensuring seamless data flow and performance optimization.
 - Collaborated with cross-functional teams to define and implement product features.
 - Debugged and resolved issues quickly, ensuring smooth user interactions.
-

Projects

Shoe Store Website

[View Project](#)

- Created a single-product website for selling shoes.
- Implemented the entire front-end using **React** and **TypeScript**.

- Used **Recoil** for state management to handle adding and editing items in the cart.

Space Tourism App

[View Project](#)

- Developed a static space tourism website that showcases handling of complex UI/UX designs.
- Ensured responsiveness and cross-browser compatibility.

To-Do List App

[View Project](#)

- Built a fully functional to-do list application using **PreactJS**.
 - Used **Preact Signals** for efficient state management and real-time updates.
 - Enabled users to add, edit, and delete tasks seamlessly.
-

Education

Sudan University of Science and Technology

Bachelor's Degree in Networking and Computer Systems (2023)
